Rollobend® System

SERMAX

MALAYSIA • SINGAPORE • INDONESIA

For precise and reproduceable bends on electro-polished stainless steel tubing. Large-bend radiuses are ideal for preventing smooth inside walls from crinkling and flaking particles. Each tool bends one tubing size up to 180°. The open side slips over the tube at any point. You get smooth long bends with no marking, scraping or flattening. No need to figure sprint-back - it's been done for you.
